Class Information

Classes begin at 9:00 a.m. and end at 5:00 p.m. The normal class day allows for breaks and lunch. A courtesy lunch will be provided on each full day of class. The student's hotel, travel and meal arrangements are the sole responsibility of the student. Speedline Technologies has special room rates at a local hotel. Information will be provided at time of scheduling.

Class registration requires a minimum of two students and is intentionally limited to a maximum of six to enhance the opportunity for maximum hands-on practical learning. At Speedline Technologies, Educational Training, education is our goal to turn out a student who has performed all of the course skills and feels comfortable in their performance of those skills. The student will then, and only then, be certified for those skills demonstrated.

Cancellation, Withdrawal, Refund Policy

Speedline Technologies serves the right to cancel a class up to two weeks prior to the class start date. Every effort will be made to provide a comparable class, transfer credit or refund to the client.

The following fee schedule applies to students and cancellations:

4 Weeks Prior	Full Refund
2 Weeks Prior	50% Refund
3 Weeks Prior	75% Refund
0-7 Days Prior	No Refund/Forfeit of Credit

Transfers

Registration may be transferred, within a company, between one student to another up to the class start date. Clients may transfer class registration to another class date up to two weeks prior to the start date and receive full class credit.

On-Site and Customized Education Programs

Speedline Technologies Educational Training will provide on-site courses on all product lines, or customized courses, should they need exist.

We highly recommend the class size be limited to six students and the participants be dedicated to the class during the duration. These classes will also require a dedicated machine that will be unavailable for production for the duration of the course (all shifts).

To accommodate your on-site needs, Speedline Technologies, Educational Training requires at least 30-45 days from the time the purchase order is received for course development and preparation. On Site pricing will be quoted on individual needs. Base price \$15,000.00.

On-site and customized courses are available by calling Speedline Technologies Educational Training. For a formal quote, please contact us with the desired course, number of participants, and preferred dates.
